Remote Control Guide

Flush	Press once to initiate a flush cycle (flush starts → flush completes).
Lid/Seat	Press once to open the lid; press again to open the seat ring.
Night Light	Press once to turn on the night light; press again to turn it off.

Remote Control Pairing & Troubleshooting

1.Remote Control Is Unresponsive

Replace the batteries and turn on the remote control.

2. Remote Control Lights Up, but the Toilet Does Not Respond

The remote may need to be paired with the toilet again. Follow these steps:

(1) Disconnect the power supply.

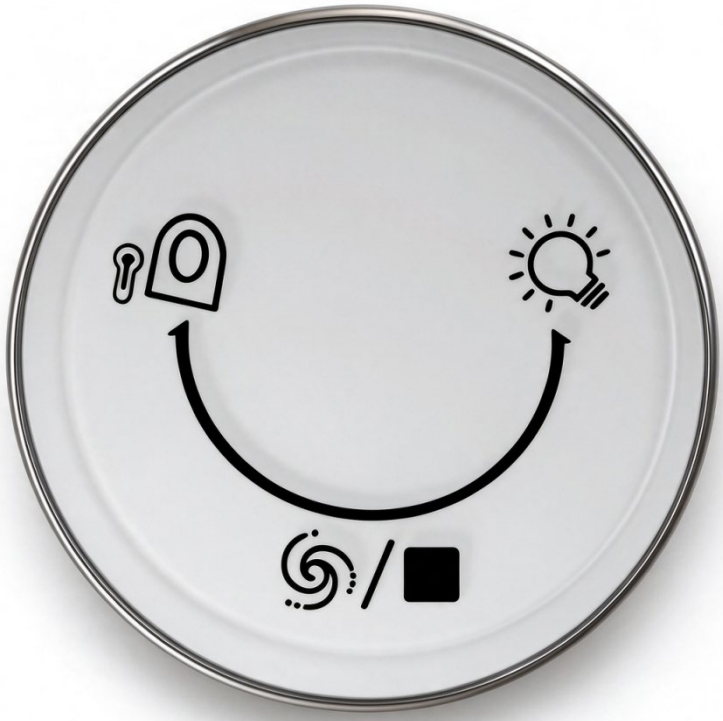

(2) Press and hold the "Lid/Seat" button on the remote control until all indicator lights begin to flash.

(3) Continue holding the button while restoring the AC 110V power supply to the main unit.

(4) Once the indicator lights on the remote control turn off, the pairing is successful.

If pairing fails, remove and reinsert the batteries—or replace them with new ones—and then repeat all the pairing steps.

Side Control Buttons

<table>
<tr><td>Seat Temp</td><td>Rotate clockwise to increase the seat temperature, and counter-clockwise to decrease it.
There are four settings in total:<table><tr><th>Level</th><th>Sound</th><th>Temperature（°C/°F）</th></tr><tr><td>L1</td><td>1 Short Beep</td><td>Room temperature = No heating</td></tr><tr><td>L2</td><td>2 Short Beep</td><td>34°C/93.2°F</td></tr><tr><td>L3</td><td>3 Short Beep</td><td>37°C/98.6°F</td></tr><tr><td>L4</td><td>4 Short Beep</td><td>40°C/104°F</td></tr></table></td></tr>
<tr><td>Night Light</td><td>When no one is seated, a long press of 5 seconds activates the night light mode.</td></tr>
<tr><td>Flush·Stop</td><td>A single short press initiates one flush cycle; pressing it again stops the cycle.</td></tr>
